All Zonal Managers,
TEVTA Punjab.

**SUBJECT:- INCORPORATION OF PHOTOGRAPHS OF MACHINERY/ EQUIPMENT
IN PC-Is.**

The issue of dimensions of machinery/ equipment, proposed to be included in PC-1, was discussed during the coordination meeting held on September 3, 2009. It was highlighted that the architects feel difficulty in proposing exact dimensions for rooms/ stores which also create post completion problems in housing machinery/ equipment.

Consequent upon decision in the coordination meeting, it has been decided to incorporate photographs of proposed machinery/ equipment in every PC-1 prepared henceforth. Specifications shall also be made available for exact dimensions and may be kept for ready reference. Laboratory-wise lists should also be provided.
