Notification

Subject: SOP FOR FIXED ASSETS AND INVENTORY MANAGEMENT

In continuation of this office order dated 05.11.2010, and with a view to strengthen the internal controls and standardizing practices, the following Standard Operating Procedure (SOP) has been developed to streamline inventory management and the recording, verification, and disposal of fixed assets.

Part I- General

2. OBJECTIVE

This Standard Operating Procedure establishes a comprehensive framework for the effective management of inventory and fixed assets across all TEVTA Institutes/Centres and offices. The purpose is to provide clear, actionable guidance to Principals and Heads of Institutes. This SOP aims to minimize discrepancies, ensure transparency, strict financial discipline and establish uniform procedures for proper custody, utilization, accounting, and reporting of inventory and fixed assets at institute level.

3. SCOPE

- a) This SOP applies to all inventory and fixed assets under the custody and control of TEVTA Institutes/centres and offices. The procedure encompasses all institute types, including Government Colleges of Technology (GCT's), Government Technical Training Institutes (GTTI's), Government Staff Training Colleges (GSTC's), Apprenticeship Training Centers (GATCs), Service Centers (SCs), and all other vocational institutes.
- b) Inventory is defined as all consumable items used in training, operations, and administration. This includes stores, spares, loose tools, training materials, stationery, and other stock items that are used in the operational process.
- c) A Fixed Asset is defined as tangible property with a purchase or assessed value over Rs. 10,000, and having useful life of more than one year with capacity to provide future economic benefits or service. This category includes land, buildings, machinery, laboratory equipment, vehicles, computers and ancillaries, furniture, and library books.

4 RESPONSIBILITIES

The successful implementation of this SOP relies on the clear definition and execution of duties by key personnel within each institute structure.

4.1 Principal/Head of Institute

a) The principal, being the Institute's Drawing and Disbursing Officer (DDO) having administrative and financial powers, shall act as the overall monitor, controller, and implementor of the inventory and asset management system within the institute. The principal must ensure the safe custody, proper upkeep, and accuracy of all records relating to inventory and fixed assets. Before approving any requisition for procurement, the principal shall ensure that the non-availability of the required item has been verified from the store and relevant sections.

b) The principal shall ensure strict implementation of all prescribed procedures relating to procurement, stock maintenance, issuance, verification, and disposal of assets and inventory. The principal shall also supervise and approve major transactions, oversee the annual physical stocktaking process, and ensure that any discrepancies or irregularities are investigated and resolved through appropriate corrective or disciplinary measures.

4.2 Accounts Officer /Accountant/Jr. Accountant

In institutes where the post of Accounts Officer exists, the Accounts Officer shall be responsible for performing following functions:

a) The officer shall be responsible for the financial management and accounting of all inventory and fixed assets of the institute. The primary duty includes the custody and maintenance of the Fixed Asset Register (FAR), ensuring that it is regularly updated to reflect all additions, transfers, and disposals of capital assets. The officer shall also ensure proper capitalization of assets, correct recording of inventory-related transactions in financial records, accurate calculation and posting of depreciation, and maintenance of appropriate ledger entries.

b) The Accounts Officer/Accountant shall reconcile financial records with the results of physical stocktaking and assist the Storekeeper in verifying unit prices and total values for entries in the Stock Register. The officer shall also prepare necessary financial and inventory reports for management and audit purposes and ensure compliance with financial procedures and directives issued by Director General Finance.

c) In institutes where the post of Accounts Officer does not exist and the positions of Accountant or Jr. Accountant are available, the above responsibilities shall be performed by the Accountant or Jr. Accountant. They will submit monthly consumption report to AD/DD Finance concerned for appropriate entry into accounting software.

4.3 Storekeeper/Inventory In-charge

- a) The Storekeeper shall be responsible for the physical custody, security, and day-to-day management of all inventory held by the institute. The Storekeeper shall maintain an accurate and updated Stock Register in which all receipts and issues are recorded promptly on the basis of supporting documents such as Goods Received Notes (GRNs), gate passes, and duly approved requisitions. Upon arrival of goods, the Storekeeper shall coordinate with the inspection committee to verify the quality and quantity of the items received. After satisfactory inspection, the Storekeeper shall prepare the Goods Received Note (GRN), record the items in the Stock Register along with unit price and total value, and inform the Accounts Officer/Accountant to update the Fixed Asset Register for capital items.
- b) The Storekeeper shall ensure that all issues from the store are made only against properly approved requisitions signed by the competent authority. The Storekeeper shall also actively participate in monthly and annual physical stocktaking and assist in reconciling physical inventory with recorded balances to ensure accuracy and accountability.
- c) Monthly consumption report shall be submitted to principal concerned who will then submit the same to accounting staff for appropriate entry of consumption.

PART II – INVENTORY MANAGEMENT

5 RECORDING AND VALUATION OF INVENTORY

All inventory items, whether procured or received through donations, shall be recorded immediately upon receipt and inspection after preparation of Goods Receipt Note (GRN) in the prescribed Stock Register. Separate registers shall be maintained for major categories such as training materials, tools, stationery and other consumables to facilitate better control. Each entry must be complete and include the item code, date of receipt, a full description, quantity, storage location, price and the amount. Purchased items shall be recorded at actual purchase value, while for donated items where cost is not available, a reasonable fair market value shall be assessed by a committee and recorded to establish an objective basis for record-keeping and consumption charging.

6 ACCOUNTING PRINCIPLE FOR INVENTORY

- a) As an accounting principle for inventory control all items purchased shall be recorded as inventory under the current assets controlling group head and shall not expensed at the time of purchase. Expenditure shall be recognized only when the items are actually consumed. This ensures that costs are matched with the period in which

resources are used, ensuring fair presentation of the financial statements and providing an accurate reflection of the institution's financial position.

b) To maintain accountability and control, a two-tier issuance system shall be implemented. The first tier involves issuance of items from the main store to departmental labs, workshops, or sub-offices. The second tier covers issuance from the sub-store to the end user, such as students, lab instructors, or heads of departments. Each issue of material at both tiers must be properly documented using pre-numbered and authorized issue slips, specifying the items, quantities, and the associated job number, as approved by the competent authority.

c) Training materials remain unutilized stock in the lab or sub-store until issued for actual student usage during practical shall reflect as an asset at closing date. Upon issuance, in next financial year the job number must be recorded, and a separate register of jobs to track consumption and usage shall be maintained. When a student project or finished good are sold, the receipts shall be deposited into the pupil fund bank account and utilized exclusively for purchasing additional training materials. Such sold finished goods shall be recorded as income under the accounting head of account "Sale from students Job". This system shall ensure accurate inventory accounting, effective resource tracking, and proper utilization of funds for training purposes.

d) A unique job number shall be assigned to training materials, issued to students or workshops for practical training, resulting into a finished job/product. A separate Job Register shall be maintained by the concerned lab, workshop, or department to record the job number, description of work, materials issued, quantity used, instructor or supervisor name, and completion date. The finished items or student projects produced during training may be sold where appropriate. All receipts from the sale of such items shall be deposited under Pupil Fund bank account. These funds shall be utilized for the purchase of additional training materials to support practical training activities, ensuring that training operations remain self-supporting and properly documented.

7 STOCKTAKING PROCEDURE

a) Regular physical verification is essential to ensure the accuracy of book of accounts and safeguard assets. Physical count of all inventory items shall be conducted each month. The physical quantities counted shall be reconciled with the quantity balances in the Stock Register. Any variances, such as shortages, excesses, or damaged goods, must be documented, investigated for cause, and adjusted in the records following formal approval by the Principal/HOI.

b) A complete and thorough physical stocktake shall remain mandatory as of 30 June each financial year. This verified stock position forms the official closing balance for the annual financial statements and audit. The process must evaluate not mere the quantity but also the condition of stock, identifying obsolete, expired, or slow-moving items. A formal stocktaking report, signed by the Principal, Storekeeper, and Accounts Officer or Accountant, must be prepared, retained and submit on demand of district /regional or head office.

PART III – FIXED ASSETS MANAGEMENT

8. CAPITALIZATION AND REGISTRATION

Any asset having the value of Rs. 10,000/- or more and useful life more than one year shall be capitalized. Immediately upon acquisition, whether by purchase, donation, or transfer, the asset must be recorded on the stock register and Fixed Asset Register. The register will be the master record and must be maintained with diligence to track the asset throughout its lifecycle.

9. Asset Tagging and Coding

To ensure unique identification, traceability, and standardized accounting across all TEVTA institutes, a mandatory eight-level alpha-numeric coding hierarchy is hereby established. Every Fixed Asset meeting the capitalization threshold of Rs. 10,000/- and having a useful life of more than one year shall be assigned an eight level unique code. This code must be clearly printed on a durable, high-quality sticker and securely affixed to a visible, prominent surface of the fixed asset to ensure permanent traceability and prevent unauthorized removal. In the future, upon the deployment of the ERP Assets and Inventory Module, these alpha-numeric codes shall be systematically transitioned to and replaced by automated barcodes to enable digital scanning and real-time tracking. This coding scheme is designed to align with the existing TEVTA MIS Accounting Software and the Fixed Asset Schedule of the institute/Office, ensuring that asset data is ready for seamless migration to the ERP system. **District Code** (Level I), **Institute Code** (Level II), **Source of Funding** (Level III), **Broad Classification** (Level IV), **Kind of Asset** (Level V), **Technology Code** (Level Vi), **Lab Code** (Level VII) and **Serial Number** (Level VIII). This comprehensive scheme will not only map the asset's source of funding and placement in the Fixed Asset Schedule but also its specific belonging to a Technology and Lab, ensuring total technical and financial transparency. The introduction of Technology (Level IV) and Lab (Level V) layers effectively creates distinct "Cost Centers" within each institute, ensuring that technical equipment and furniture are physically and financially mapped to their specific functional areas.

The coding structure follows the hierarchy of:

- **Level I: District Code** (e.g., LHR for Lahore) (**Annex I**)
- **Level II: Institute Code** (e.g., 11020 for GTTI Gulberg) (**Annex II**)
- **Level III: Source of Funding** (035 = Grant, 036 = Own Source, 037 = Donated Assets)
- **Level IV: Broad Classification** (e.g., MCH, FUR, COM, VEH)
- **Level V: Kind of Asset** (e.g., LAT for Lathe, SOF for Sofa, CAR for Car)
- **Level VI: Technology Code** (e.g., 001 for Office, 002 for Civil, 003 for Mechanical, 004 for IT) (**Annex III**)
- **Level VII: Lab Code** (e.g., 001 for Survey Lab, 002 for Machine Shop, 003 for Computer Lab)
- **Level VIII: Serial Number** (Sequential identifier)

Example: GTTI Gulberg, Lahore District

Sofa (Own Source) in Principal's Office	LHR-11020-036-FUR-SOF-001-011-0001
Instructor Chair (Grant) in Survey Lab (Civil)	LHR-11020-035-FUR-CHR-002-004-0001
Lathe Machine (Grant) in Machine Shop (Mechanical)	LHR-11020-035-MCH-LAT-011-044-0001
Abney's Level (Grant) in Survey Lab (Civil)	LHR-11020-035-MCH-ABN-002-004-0001
Computer (Grant) in Computer Lab (Mechanical)	LHR-11020-035-COM-DES-011-005-0001
Bus (Grant) in Office Transport Pool	LHR-11020-035-VEH-BUS-001-013-3333

10 FIXED ASSET REGISTER

The Fixed Asset Register must be a robust record containing comprehensive details for each asset to enable effective tracking and financial control. Essential information includes a unique asset identification number, a detailed description, location, custodian, date of acquisition, source of funding (Grant, Own Source or Donation), quantity, rate, and value or assessed value. The register must also have dedicated columns to record the annual depreciation charged, the cumulative accumulated depreciation, and the resulting net book value, determined as cost minus accumulated depreciation. The register must be updated at the time of asset procurement, Donation of Assets, Declaring unserviceable, , Inter section, inter institute , inter district transfers on regular basis.

T

11. VALUATION OF DONATED FIXED ASSETS

a) All donated assets meeting the capitalization threshold shall be recorded at their fair value on the Fixed Asset Register. In absence of a purchase cost, a fair market value shall be formally assessed using the following prescribed methods, listed in order of preference:

- **For Land:** The value shall be assessed based on the current year's rates issued by the Deputy Commissioner (DC) or the Revenue Department for the relevant area.
- **For Buildings:** The value shall be assessed as per the current year's Market Rate Schedule (MRS) issued by the Building/Finance Department.
- **For Other Assets:** The current market price of an identical or similar new asset, adjusted for its present condition and remaining useful life, shall be determined from reliable sources or vendors.

b) Valuation shall be performed by a technical committee comprising of Head of Institute, Head of Department (relevant to the asset), Senior-most faculty member of the relevant trade/domain, Accounts Officer/Accountant, and Storekeeper, whose assessment shall be properly documented based on above guidelines. The valuation certificate shall be filed with the asset's records to justify the capitalized value during audits.

12. DEPRECIATION OF ASSETS

Depreciation is the systematic allocation of an asset's depreciable amount over its useful life. For TEVTA institutes, depreciation shall be charged annually using the Declining Balance Method, as of 30 June each year. The Accounts Officer or Accountant shall be responsible for performing these calculations accurately. The prescribed annual depreciation rates are as follows:

Buildings	5%
Furniture	10 %
Laboratory Equipment	10%
Machinery	10 %
Electrical & Gas Installations	10 %
Library Books	10%
Computers and IT Equipment	30%
Vehicles	20%.

Land is not depreciated .

13. PHYSICAL VERIFICATION AND ASSET DISPOSAL

a) A complete physical verification of all fixed assets shall be carried out on 30 June each year. Each asset shall be physically located, its identification tag checked, and its

condition verified against the details on the Fixed Asset Register. Any discrepancies, such as missing, untagged, or prematurely damaged assets, shall be investigated, reported, and resolved.

b) As part of the annual review, assets that are obsolete, damaged beyond economical repair, or otherwise unserviceable shall be identified. Such assets shall be removed from the active Fixed Asset Register and entered into a separate unserviceable Assets /Dead Stock Register. No depreciation shall be charged from the date of this transfer.

c) To properly manage the disposal of assets within a public sector framework, the process must be executed systematically to ensure transparency, regulatory compliance, and maximum financial recovery. The first step involves the formal identification and categorization of items as unserviceable, obsolete, or surplus by a technically qualified inspection committee. This committee must inspect the physical condition of each asset, verify its book value, and record detailed justifications for why the item is no longer fit for operational use, ensuring that repairable items are not prematurely discarded.

d) Following the identification and categorization phase, the compiled inventory must be formally declared unserviceable, obsolete, or surplus by the competent authority designated under the delegation. Immediately upon receiving this formal declaration, the items must be derecognized and removed from the active fixed asset register to reflect their status accurately in the financial records. Concurrently, the process for disposal via public auction must be initiated under the strict supervision of a formally notified disposal committee. To ensure institutional transparency, compliance with public procurement principles, and regulatory oversight, this committee must include nominated representatives from relevant government departments like representative from S&GAD/District Administration and representative of Finance Department alongside internal organizational members to witness and validate the entire auction process.

e) Once the disposal process is successfully concluded, the financial transactions must be recorded with precise accounting entries to maintain the integrity of the books. The total amount collected from the buyer must be bifurcated so that the applicable withholding tax and any provincial sales tax are separated from the actual sale proceeds. The tax component must be deposited separately into the government treasury under the prescribed revenue heads within the stipulated timeframe, while the net sale revenue is deposited directly into the designated bank account of the organization.

f) To reflect the financial impact of the disposal, a comprehensive journal entry must be posted in the accounting system. This entry requires debiting the bank account for the net revenue received, debiting the accumulated depreciation account to clear all

depreciation recorded on those specific assets up to the date of sale, and crediting the fixed asset account for the original historical cost to completely remove the items from the books. Any difference between the net disposal proceeds and the carrying value of the assets must be recognized immediately, resulting in a credit to the gain on disposal of assets account if the proceeds exceed the book value, or a debit to the loss on disposal account if the proceeds are less than the book value.

g) In case of inter-institute transfer of fixed assets, mandating that all such movements require the prior formal approval of the competent authority determined strictly on the basis of the net book value of the assets as per the TEVTA Delegation of Financial Powers. To ensure absolute continuity of financial records and precise accounting treatment during these transfers, the procedure dictates that both the original asset cost and its accumulated depreciation must be simultaneously transferred from the books of the transferring formation to the accounts of the receiving institution.

14. Annual Stock Take /Asset Verification

a) Special emphasis shall be given to the mandatory stocktake and asset verification as of 30 June each year. This exercise shall form the basis of year-end financial reporting, audit verification, and institutional accountability. Principal/HOI shall ensure that complete physical verification of inventory and fixed assets is carried out, reconciled with stock register and fixed asset registers, and duly certified through committees. Any shortages, unserviceable items, or discrepancies identified during this process shall be investigated, adjusted in records with proper approval. Non-compliance with the stocktake and asset verification shall be treated as a serious control lapse and may lead towards administrative action.

b) During the annual stocktake and asset verification conducted on 30 June each year, particular attention shall be given to identifying unserviceable fixed assets and obsolete inventory items. Any asset or store item that is damaged beyond economical repair, obsolete, or no longer required for operational purposes shall be clearly segregated and formally declared as unserviceable or obsolete by the verification committee. Following such declaration, the necessary entries shall be made in the relevant Stock Registers and Fixed Asset Register to reflect the updated status of the items.

c) A separate unserviceable / obsolete Items Register shall be maintained for proper recordkeeping. This register shall include the description of the item, identification or stock number, date on which the item was declared unserviceable or obsolete, reference to the verification proceedings, and the names and signatures of the committee members making

the determination. This record shall serve as the basis for further action regarding disposal in accordance with applicable rules and procedures.

PART IV – MONITORING & COMPLIANCE

15. Monitoring

The implementation of this SOP shall be monitored at district/regional and head office levels. The Assistant Director Finance / Deputy Director Finance and district /regional director of the respective district shall review and monitor the maintenance of the Fixed Asset and Stock Registers of the institutes under their jurisdiction and submit monitoring reports to Head Office on a quarterly basis on the prescribed format. Further, the Academic Audit teams and the Internal Audit Wing shall also review the Fixed Asset Register and Stock Register during their visits to the institutes and ensure compliance with the provisions of this SOP.

16. Documentation and Compliance

Systematic documentation is the cornerstone of accountability and audit readiness. Institutes shall maintain, in an organized manner, all records stipulated in this SOP, including the various registers, issue slips, stocktaking reports, depreciation schedules, valuation certificates, and disposal documents. The Principal/HOI, in conjunction with the Accounts Officer or Accountant, shall be responsible for ensuring full adherence to the SOP. Regular internal checks shall be ensured to verify compliance, with roles and duties clearly assigned according to the specific administrative structure of the institute.

58030	Govt. College of Technology, Rajanpur
58031	Govt. Technical Training Center (M & F), Central Jail, D.G.Khan
58032	Govt. Technical Training Institute, Choti Textile Mills, Jampur Road, D.G.Khan (ADP)

Annexure III

List and Codes of Technology, Trades and Labs

Technology Code	Name of Technology	Lab/Office Code	Standardized Lab Name
001	Office	001	Chairperson office
001	Office	002	COO Office
001	Office	003	Finance
001	Office	004	Operations I
001	Office	005	Operations II
001	Office	006	HRM
001	Office	007	Academics
001	Office	008	Procurement
001	Office	009	Internal Audit
001	Office	010	Public Relation
001	Office	011	Principal office
001	Office	012	Store
001	Office	013	Admin office
001	Office	014	Transport
001	Office	015	Class Rooms
002	DAE Civil Technology	001	Material Testing Lab
002	DAE Civil Technology	002	Construction Lab
002	DAE Civil Technology	003	Public Health Lab
002	DAE Civil Technology	004	Survey Lab
002	DAE Civil Technology	005	Computer Lab
002	DAE Civil Technology	006	Drawing Hall/ Drafting Lab
003	DAE Architecture Technology	001	Material Testing Lab
003	DAE Architecture Technology	002	Construction Lab / Workshop
003	DAE Architecture Technology	004	Survey Lab
003	DAE Architecture Technology	005	Computer Lab
003	DAE Architecture Technology	006	Drawing Hall/ Drafting Lab
003	DAE Architecture Technology	007	Display Room/Building Material Lab
004	DAE CIT	005	Computer Lab
004	DAE CIT	008	Hardware Lab
005	DAE DDM	005	Computer Lab
005	DAE DDM	011	Machine Embroidery Lab
005	DAE DDM	012	Textile Techniques Lab

005	DAE DDM	013	Knitting Lab
005	DAE DDM	014	Workshop Practice
005	DAE DDM	015	Pattern & Draping Lab
005	DAE DDM	016	Drawing & Design Lab
005	DAE DDM	017	Textile Design Studio
006	DAE Mechatronics Technology	019	Electronics And Sensors Lab
006	DAE Mechatronics Technology	020	Automation and Instrumentation Lab
006	DAE Mechatronics Technology	021	Mechanics Lab
006	DAE Mechatronics Technology	022	Machine Shop
006	DAE Mechatronics Technology	023	Robotics and Testing Lab
007	DAE Chemical Technology	024	Chemical Engineering Lab
007	DAE Chemical Technology	025	Analytical Lab
007	DAE Chemical Technology	026	Industrial Chemical Process Lab
007	DAE Chemical Technology	027	General Chemistry Lab
007	DAE Chemical Technology	028	Organic / Physical Lab
007	DAE Chemical Technology	029	Unit Operations Lab
008	DAE Electronics Technology	030	Basic Electronics Lab
008	DAE Electronics Technology	031	Advance Electronics Lab
008	DAE Electronics Technology	032	Applied Electronics Lab
009	DAE Telecommunication Technology	032	Applied Electronics Lab
009	DAE Telecommunication Technology	033	Basic Telecommunication Lab
009	DAE Telecommunication Technology	034	Advance Telecommunication Lab
010	DAE Food Processing & Preservation	035	Food Analysis Lab
010	DAE Food Processing & Preservation	036	Food Processing Lab
010	DAE Food Processing & Preservation	037	Dairy Lab
010	DAE Food Processing & Preservation	038	Confectionery & Baking Lab
011	DAE Mechanical Technology (Power)	005	Computer Lab
011	DAE Mechanical Technology (Power)	039	Advance Engine Lab
011	DAE Mechanical Technology (Power)	040	Automotive Electricity & Electronics Lab
011	DAE Mechanical Technology (Power)	041	Electric Vehicle Lab
011	DAE Mechanical Technology (Power)	042	Denting & Painting Lab
011	DAE Mechanical Technology (Power)	043	Suspension, Steering & Brakes Lab
011	DAE Mechanical Technology (Power)	044	Farm Machinery Lab
012	DAE Automation Technology	030	Basic Electronics Lab
012	DAE Automation Technology	045	Digital Electronics Lab
012	DAE Automation Technology	046	Fluid Mechanics Lab

012	DAE Automation Technology	047	PLC Lab
012	DAE Automation Technology	048	CNC Lab
013	DAE Bio-Medical Technology	049	Bio Medical Equipment Lab
013	DAE Bio-Medical Technology	050	Instrument Lab
013	DAE Bio-Medical Technology	051	Telecom Lab
014	DAE Furniture Design Technology	005	Computer Lab
014	DAE Furniture Design Technology	016	Drawing & Design Lab
014	DAE Furniture Design Technology	052	Advance Wood Working Lab
014	DAE Furniture Design Technology	053	Finishing Lab
015	DAE Textile Spinning Technology	022	Machine Shop
015	DAE Textile Spinning Technology	070	Spinning Lab
015	DAE Textile Spinning Technology	071	Textile Weaving Shop
015	DAE Textile Spinning Technology	072	Textile Testing & Quality Control Lab
015	DAE Textile Spinning Technology	073	Dyeing & Finishing Shop
016	DAE Textile Weaving Technology	022	Machine Shop
016	DAE Textile Weaving Technology	070	Spinning Lab
016	DAE Textile Weaving Technology	071	Textile Weaving Shop
016	DAE Textile Weaving Technology	072	Textile Testing & Quality Control Lab
016	DAE Textile Weaving Technology	073	Dyeing & Finishing Shop
017	DAE Petrochemical Technology	029	Unit Operations Lab
017	DAE Petrochemical Technology	046	Fluid Mechanics Lab
017	DAE Petrochemical Technology	066	Basic Geology and Drilling Lab
017	DAE Petrochemical Technology	067	Fuel Testing Lab
017	DAE Petrochemical Technology	068	Process Instrumentation Lab
017	DAE Petrochemical Technology	074	Petrochemicals Lab
017	DAE Petrochemical Technology	075	Fuels And Combustion Lab
017	DAE Petrochemical Technology	076	Plastic Manufacturing Lab
018	DAE Mechanical Technology	001	Material Testing Lab
018	DAE Mechanical Technology	005	Computer Lab
018	DAE Mechanical Technology	006	Drawing Hall/ Drafting Lab
018	DAE Mechanical Technology	014	Workshop Practice
018	DAE Mechanical Technology	015	CAD / CAM Lab
018	DAE Mechanical Technology	022	Machine Shop
018	DAE Mechanical Technology	047	PLC Lab
018	DAE Mechanical Technology	048	CNC Lab
018	DAE Mechanical Technology	052	Wood Work Shop

018	DAE Mechanical Technology	054	Foundry Work Shop
018	DAE Mechanical Technology	055	Welding and Forging Shop
018	DAE Mechanical Technology	056	Metrology
018	DAE Mechanical Technology	057	Metal Shop
018	DAE Mechanical Technology	058	Hydraulics And Hydraulic Machines
018	DAE Mechanical Technology	059	Applied Thermodynamics Lab
019	DAE Electrical Technology	060	Basic Lab No.1 (Wiring Lab)
019	DAE Electrical Technology	061	Basic Lab No.2
019	DAE Electrical Technology	062	Power Lab (along with Telecom)
020	DAE HVACR Technology	005	Computer Lab
020	DAE HVACR Technology	006	Drawing Hall/ Drafting Lab
020	DAE HVACR Technology	016	Drawing & Design Lab
020	DAE HVACR Technology	022	Machine Shop
020	DAE HVACR Technology	040	Automotive Electricity & Electronics Lab
020	DAE HVACR Technology	063	Refrigeration Workshop
020	DAE HVACR Technology	064	Air Conditioning Workshop
020	DAE HVACR Technology	065	Thermo-Heat Transfer Lab
